

Environmental Policy

StS Resources and Technology Ltd provide services to the oil, gas & renewable energy sector both on and offshore.

We believe that our long term business objectives cannot be achieved unless a balance is maintained between our operations and the environment.

Protecting the environment is the responsibility of every staff member in the organisation.

StS is committed to sustainable operations and minimise any adverse impact on the environment resulting from our business activities:

- ✦ Focus on preventing pollution, reducing waste and resource conservation as critical considerations within our core management processes.
- ✦ Complying with all applicable national and local environmental legislation and regulations
- ✦ Setting achievable objectives and targets for control, reduction, and where practicable elimination of identified environmental impacts
- ✦ Monitoring the achievement of these objectives and targets
- ✦ Provide adequate resources to ensure that this policy is effectively implemented
- ✦ Through staff consultation, involvement and training gain commitment to this policy from everyone in the Company.
- ✦ Continual Improvement.

All staff will follow the requirements of the Environmental Management System in the performance of their tasks and will ensure this policy is supported and maintained. This policy will be communicated to our customers, suppliers, and subcontractors. It will also be made available to the public whenever requested
